ICC International Cannabis Corporation  
**Notes to the consolidated interim financial statements (unaudited)**  
*For the three month period ended March 31, 2017*

**1. NATURE OF OPERATIONS**

ICC International Cannabis Corporation (the “Company” or “ICC”) was incorporated on October 19, 2010 under the Business Corporations Act (British Columbia) as Shogun Capital Corp.

ICC International Corp, a wholly-owned subsidiary of the Company, is engaged in producing and selling cannabis and its derivatives in Uruguay for recreational, industrial and medicinal use, pursuant to applicable Uruguayan law. As at March 31, 2017, the Company is operative in the “recreational cannabis” segment and in a pre-operative stage in the “cannabinoids extraction” segment”.

The Company's common shares are listed under the symbol “ICC” on the TSX Venture Exchange (“TSX-V”).

On November 23, 2016, the Company closed its qualifying transaction with ICC International Corp. The Company was a capital pool company prior to the transaction. The transaction was accounted for as a reverse acquisition (Note 6).

These consolidated interim financial statements were approved by the Company's Board of Directors on May 29, 2017.

**2. BASIS OF PREPARATION**

**2.1. Statement of compliance**

The policies applied in this consolidated interim financial statements are based on International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations of the IFRS Interpretations Committee (“IFRIC”). The interim financial statements have been prepared by management in accordance with IAS 34 for Interim Financial Reporting.

**2.2. Basis of measurement**

These consolidated interim financial statements have been prepared on the going concern basis, under the historical cost convention except for certain financial instruments that are measured at fair value and biological assets that are measured at fair value less costs to sell, as detailed in the Company's accounting policies.

**2.3. Functional and presentation currency**

The consolidated interim financial statements are presented in United States dollars, unless otherwise stated. References to CAD\$ are to Canadian dollars.

The functional currency of the Company is the Canadian dollar. The functional currency of the Company's subsidiaries, which includes ICC International Corp, Tersum S.A. and Salesol S.A, is the United States dollar.

**2.4. Basis of consolidation**

These consolidated interim financial statements include the accounts of the Company and its subsidiaries. Subsidiaries are entities controlled by the Company. Subsidiaries are included in the

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

consolidated financial results of the Company from the effective date of acquisition up to the effective date of disposition or loss of control. The principal wholly owned subsidiaries of ICC are as follows:

<b>Subsidiaries</b>	<b>Jurisdiction of incorporation</b>
ICC International Corp	British Virgin Islands
Tersum S.A.	Uruguay
Salesol S.A. (dormant entity)	Uruguay

All transactions and balances between companies are eliminated on consolidation. Each entity within the consolidated group determines its own functional currency and items included in the consolidated interim financial statements of each entity are measured using the functional currency.

**3. SIGNIFICANT ACCOUNTING POLICIES**

**3.1. Revenue**

Revenue is recognized at the fair value of consideration received or receivable. Revenue from the sale of goods is recognized when all the following conditions have been satisfied, which are generally met once the products are shipped to customers:

- the Company has transferred the significant risks and rewards of ownership of the goods to the purchaser;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

**3.2. Cash and cash equivalents**

Cash and cash equivalents are comprised of cash and highly liquid investments that are readily convertible into known amounts of cash with original maturities of three months or less.

**3.3. Inventory**

Inventory is valued at the lower of cost and net realizable value. Cost is determined using the weighted average method. Inventories of harvested cannabis are transferred from biological assets into inventory at their fair value at harvest less costs to sell, which is deemed to be their cost. Any subsequent post-harvest costs are capitalized to inventory to the extent that cost is less than net realizable value. Net realizable value is determined as the estimated selling price in the ordinary course of business less estimated costs to sell. Packaging and supplies are initially valued at cost.

**3.4. Biological assets**

Biological assets are living plants managed by the Company for sale, as agricultural produce, or as biological assets. Biological assets of ICC include recreational cannabis crops, which are to be harvested as agricultural produce.

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

The Company distinguishes between consumable and bearer biological assets, and between mature and immature biological assets. 'Consumable' biological assets are those assets that may be harvested as agricultural produce or sold as biological assets. 'Bearer' biological assets are those assets capable of producing more than one harvest. 'Mature' biological assets are those that have attained harvestable specifications (for consumable biological assets) or are able to sustain regular harvests (for bearer biological assets). 'Immature' biological assets are those biological assets other than mature biological assets. Consumable biological assets are classified as current or non-current depending on their period of maturity. Bearer biological assets are generally classified as non-current.

Expenses relating to the agricultural activity include planting, harvesting, weeding, seedlings, irrigation, agrochemicals, fertilizers and others. The Company elected to expense all such costs when incurred and include them within 'Cost of production' in the statement of profit or loss and other comprehensive income. Therefore, 'Cost of production' represents the costs expensed whilst the biological assets are growing.

Biological assets are measured at fair value less costs of disposal on initial recognition and at each statement of financial position date, except where fair value cannot be reliably measured.

Expected future sale prices for all biological assets are determined by reference to observable data in the relevant market. Costs expected to arise throughout the life of the biological assets are estimated based on statistical data.

The gain or loss arising from initial recognition of a biological asset at fair value less costs of disposal and from a change in fair value less costs of disposal of a biological asset is recognized as a gain or loss in the period in which they are incurred.

**3.5. Property, plant and equipment**

Property, plant and equipment are recorded at cost, less accumulated depreciation and impairment losses, if any. Historical cost comprises the purchase price and any costs directly attributable to the acquisition.

Where individual components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items, which are depreciated separately.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. These costs may include the cost of replacing parts that are eligible for capitalization when the costs of replacing the parts are incurred. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the period in which they are incurred.

Depreciation is based on the estimated useful life of the asset using the straight-line method as follows:

- Machinery 5 – 10 years
- Furniture and equipment 5 years
- Information systems 5 years
- Facilities 10 years
- Construction in progress not depreciated

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized within 'Other operating income and expenses, net' in the statement of profit or loss and other comprehensive income.

**3.6. Intangible assets – licenses and authorizations costs**

Intangible assets are recognized as such if it is probable that future economic benefits attributable to the asset will flow to the Company and their cost can be reasonably measured.

Intangible assets that are acquired by the Company, which have finite useful lives, are measured at cost less accumulated amortization and impairment losses. These intangible assets are comprised of license costs and cost related to the obtention of the licenses and authorizations for the recreational and cannabinoids extraction projects, which are amortized in profit or loss on a straight line basis over their estimated useful lives estimated to be five years and ten years respectively from the beginning of operations.

**3.7. Impairment of non-financial assets**

The Company reviews and evaluates impairment of its non-financial assets subject to depreciation and amortization whenever events or changes in circumstances occur that indicate that the carrying amount of the asset will not be recovered from its use or sale. An impairment loss is recognized for the amount by which the carrying amount of the assets exceeds the higher of its fair value and value in use. Fair value is the amount that can be obtained from the sale of an asset in an open market. The value in use corresponds to the present value of the estimated future cash flows expected to be obtained from the continuing use of the asset and from its sale at the end of its useful life. Impairment losses recognized in previous years are reversed if there is a change in the estimates used on the last time an impairment loss was recognized.

**3.8. Financial instruments**

Financial assets are classified into one of four categories:

- fair value through profit or loss ("FVTPL");
- held-to-maturity ("HTM");
- available for sale ("AFS"); and
- loans and receivables.

*(i) FVTPL financial assets*

Financial assets are classified as FVTPL when the financial asset is held for trading or it is designated as FVTPL. Financial assets classified as FVTPL are stated at fair value with any resulting gain or loss recognized in the consolidated statements of income and comprehensive income. Transaction costs are expensed as incurred.

**Notes to the consolidated interim financial statements (unaudited)**

For the three month period ended March 31, 2017

*(ii) HTM investments*

HTM investments are recognized on a trade-date basis and are initially measured at fair value, including transaction costs and subsequently at amortized cost.

*(iii) AFS financial assets*

AFS financial assets are those non-derivative financial assets that are designated as available for sale or are not classified in any of the other categories. Gains and losses arising from changes in fair value are recognized in other comprehensive income.

*(iv) Loans and receivables*

Loans and receivables are financial assets having fixed or determinable payments that are not quoted in an active market. They are initially recognized at the transaction value and subsequently carried at amortized cost less, when material, a discount to reduce the loans and receivables to fair value.

*(v) Impairment of financial assets*

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

The carrying amount of all financial assets, excluding trade receivables, is directly reduced by the impairment loss. The carrying amount of trade receivables is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in the consolidated statements of income and comprehensive income. With the exception of AFS equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease relates to an event occurring after the impairment was recognized; the previously recognized impairment loss is reversed through the consolidated statements of income and comprehensive income. On the date of impairment reversal, the carrying amount of the financial asset cannot exceed its amortized cost had impairment not been recognized.

*(vi) Financial liabilities and other financial liabilities*

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities. Financial liabilities at FVTPL are stated at fair value, with changes being recognized through the consolidated statements of income and comprehensive income. Other financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

*(vii) Classification of financial instruments*

Cash and cash equivalents – FVTPL

Receivables from related parties – loans and receivables

Other receivables – loans and receivables

Accounts payable and other payables – other financial liabilities

Due to related parties – other financial liabilities

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

*(viii) Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

**3.9. Provisions**

Provisions are recognized when (i) the Company has a present legal or constructive obligation as a result of past events; (ii) it is probable that an outflow of resources will be required to settle the obligation; and (iii) a reliable estimate of the amount of the obligation can be made. The Company bases its accruals on up-to-date developments, estimates of the outcomes of the matters and legal counsel experience in contesting, litigating and settling matters. As the scope of the liabilities becomes better defined or more information is available, the Company may be required to change its estimates of future costs, which could have a material effect on its results of operations and financial condition or liquidity.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligations.

**3.10. Contingent liabilities and assets**

Contingent liabilities are not recognized in the consolidated interim financial statements; they are only disclosed in a note to the financial statements. When the possibility of an outflow of resources to cover a contingent liability is remote, such disclosure is not required.

Contingent assets are not recognized in the consolidated interim financial statements, they are only disclosed in the notes to the financial statements when it is probable that an inflow of resources occurs.

Items previously treated as contingent liabilities will be recognized in the consolidated interim financial statements in the period in which a change of probabilities occurs, that is, when it is determined that it is probable that an outflow of resources will take place to cover such liabilities. The items treated as contingent assets will be recognized in the consolidated interim financial statements in the period in which it is determined that it is virtually certain that an inflow of resources will occur, respectively.

**3.11. Segment reporting**

According to IFRS 8, operating segments are identified based on the 'management approach'. This approach stipulates external segment reporting based on the Company's internal organizational and management structure and on internal financial reporting to the chief operating decision maker. Management of the Company is responsible for measuring and steering the business success of the segments and is considered the chief operating decision maker within the meaning of IFRS 8.

**3.12. Share-based payments**

The Company approved the stock option plan by which directors, executive officers and consultants may be entitled to receive stock options. Stock options are measured at fair value at the date of grant. The Company measures the fair value using the valuation technique that they consider to be the most appropriate to value each class of award. Methods used may include Black-Scholes calculations or other models as appropriate. The valuations take into account factors such as non-transferability, exercise restrictions and behavioral considerations.

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

For stock options granted to directors and executive officers as part of their remuneration package, an expense is recognized in profit or loss to spread the fair value of each award over the vesting period on a straight-line basis, after allowing for an estimate of the awards that will eventually vest.

The estimate of the level of vesting is reviewed at least annually, with any impact on the cumulative charge being recognized immediately. For stock options granted to selling agents (including directors acting as selling agents), the charge is deducted from equity as part of the transaction costs directly attributable to the capital issuance.

When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital when the options are exercised.

When stock options granted to directors and executive officers as part of their remuneration package expired, the charge is credited against retained earnings / (accumulated deficit).

**3.13. Earnings per share**

Basic earnings per share is calculated by dividing the profit or loss for the period attributable to the equity holders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing the profit or loss for the period by the weighted average number of common shares outstanding, adjusted for the effect of all potentially dilutive shares, including share options and warrants, on an as-if converted basis.

**3.14. Income taxes**

Income tax expense consists of current and deferred tax expense. Current and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or other comprehensive income (loss).

*Current tax*

Current tax is recognized and measured at the amount expected to be recovered from or payable to the taxation authorities based on the income tax rates enacted or substantively enacted at the end of the reporting period and includes any adjustment to taxes payable in respect of previous years.

*Deferred tax*

Deferred tax is recognized on any temporary differences between the carrying amounts of assets and liabilities in the consolidated interim financial statements and the corresponding tax bases used in the computation of taxable earnings. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized and the liability is settled. The effect of a change in the enacted or substantively enacted tax rates is recognized in net earnings and comprehensive income (loss) or in equity depending on the item to which the adjustment relates.

Deferred tax assets are recognized to the extent future recovery is probable. At each reporting period end, deferred tax assets are reduced to the extent that it is no longer probable that sufficient taxable earnings will be available to allow all or part of the asset to be recovered.

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

**3.15. New standards and interpretations issued but not yet adopted**

The IASB has issued several new standards and amendments that will be effective on various dates. The listing below is of standards, interpretation and amendments issued which the Company reasonably expects to be applicable at a future date. The Company intended to adopt those standards when they become effective. The impact on the Company is currently being assessed.

*IFRS 9 Financial Instruments ("IFRS 9")*

In July 2014, IASB issued the final version of IFRS 9 (2014) as a complete standard including the requirements previously issued and the additional amendments to introduce a new expected loss impairment model and limited changes to the classification and measurement requirements for financial assets. This Standard will replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 (2014) is effective for reporting periods beginning on or after January 1, 2018 with early adoption permitted. Management is currently evaluating the potential impact, if any, that the adoption of IFRS 9 will have on the Company's financial statements.

*IFRS 15 Revenue from Contracts with Customers ("IFRS 15")*

In May 2014, IASB issued a new standard, IFRS 15, on the recognition of revenue from contracts with customers. IFRS 15 specifies how and when entities recognize revenue, as well as requires more detailed and relevant disclosures. The standard is effective for annual periods beginning on or after January 1, 2018. Earlier application is permitted. Management is currently evaluating the potential impact, if any, that the adoption of IFRS 15 will have on the Company's financial statements.

*IFRS 16 Leases ("IFRS 16")*

IFRS 16 was issued by the IASB on January 13, 2016. The Company will be required to adopt IFRS 16 in its financial statements for the annual period beginning on January 1, 2019. The new standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. This standard substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Management is currently evaluating the potential impact, if any, that the adoption of IFRS 16 will have on the Company's financial statements.

**4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

The preparation of consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, and revenue and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the review affects both current and future periods.

**4.1. Biological assets and inventory**

Management is required to make a number of estimates in calculating the fair value of biological assets and harvested cannabis inventory. These estimates include a number of assumptions such as estimating the stage of growth of the cannabis, harvesting costs, sales price, and expected yields.

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

**4.2. Share-based compensation**

The fair value of share-based compensation expenses are estimated using the Black-Scholes option pricing model and rely on a number of estimates, such as the expected life of the option, the expected volatility of the underlying share price, the risk free rate of return, and the estimated rate of forfeiture of options granted.

**4.3. Estimated useful lives and depreciation of property, plant and equipment and intangible assets**

Depreciation of property, plant and equipment and intangible assets is dependent upon estimates of useful lives based on management's judgment.

**4.4. Impairment testing**

At the date of each statement of financial position, the Company reviews the carrying amounts of its finite-life intangible assets carried at cost to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent, if any, of the impairment loss. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

**4.5. Valuation of deferred income tax assets**

The Company assesses the probability of taxable profits being available in the future based on its budget forecasts. These forecasts are adjusted to take account of certain non-taxable income and expenses and specific rules on the use of unused credits and tax losses. When a forecast shows a net profit, the Company considers that the use of deferred income taxes is probable and recognizes the benefit. When management believes that the benefits will not be realized, the deferred income tax asset is not recognized.

**5. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS**

**5.1. Financial instruments**

The Company has classified its cash and cash equivalents as fair value through the consolidated statements of loss and comprehensive income loss and other receivables as loans and receivables, and accounts payable and other payables as other financial liabilities.

The carrying values of other receivables, and accounts payable and other payables approximate their fair values due to their short periods to maturity.

**5.2. Financial risk management**

The Company's activities are exposed to a variety of financial risks in the normal course of business. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize the Company's capital costs by using suitable means of financing and to manage and control the Company's financial risks effectively.

The principal financial risks arising from financial instruments are liquidity risk, credit risk, and capital risk.

# ICC International Cannabis Corporation

## Notes to the consolidated interim financial statements (unaudited)

For the three month period ended March 31, 2017

### a) Liquidity risk

As at March 31, 2017, the Company's financial liabilities consist of accounts payable and other payables, which have contractual maturity dates within one year, with the exception of the long term portion of accounts payable and other payables. The Company manages its liquidity risk by reviewing its capital requirements on an ongoing basis. Based on the Company's working capital position at March 31, 2017, management regards liquidity risk to be low.

### b) Credit risk

Credit risk arises from cash and cash equivalents, as well as credit exposure to customers, including outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted. Counterparties in cash transactions are limited to first-rate financial credit institutions.

As of March 31, 2017, the Company's management considers that the Company's other receivables do not have non-collectable accounts because they do not have credit risk.

### c) Capital risk management

The capital of the Company includes shareholders' equity of \$12,941,088 (December 31, 2016 – \$13,570,474), which is comprised of issued share capital, warrants, share-based payments reserve and deficit. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets. The Company is not subject to externally imposed capital requirements.

## 6. REVERSE ACQUISITION

In November 2016, the Company completed its qualifying transaction (the "Qualifying Transaction") with ICC International Corp (formerly International Cannabis Corp). ICC International Corp amalgamated with a newly formed and direct, wholly-owned subsidiary of Shogun Capital Corp. to become a direct, wholly-owned subsidiary of Shogun Capital Corp. Shogun Capital Corp. changed its name to ICC International Cannabis Corporation and remained as the resulting issuer. The Qualifying Transaction constituted the qualifying transaction of Shogun Capital Corp. under the policies of the TSX-V.

By way of a three-cornered amalgamation, Shogun Capital Corp. acquired all of the issued and outstanding shares of ICC International Corp by issuing 0.8 common shares for each outstanding ICC International Corp common share. Each of the warrants to purchase common shares of ICC International Corp thereafter was exercisable for 0.8 common shares of ICC.

The Qualifying Transaction has been accounted for as a reverse acquisition that does not constitute a business combination. For accounting purposes, the legal subsidiary, ICC International Corp, has been treated as the acquirer and Shogun Capital Corp., the legal parent, has been treated as the acquiree.

	<u><b>1,819,219</b></u>	<u><b>574,311</b></u>

- (i) On January 23, 2017, the Company invested \$1 million in a six month unsecured loan bearing interest at a rate of 10% per annum. The Company does not require these funds to continue operations of its business in the short-term.

**9. INVENTORIES**

As of March 31, 2017, inventories were comprised of approximately 193 kilograms of harvested recreational cannabis (December 31, 2016: 109).

**10. BIOLOGICAL ASSETS**

Biological assets, comprised entirely of live plants, are as follows:

	<u>March 31, 2017</u>	<u>December 31, 2016</u>
	<u>\$</u>	<u>\$</u>
<b>Beginning of the period/year</b>	85,883	-
Initial recognition and changes in fair value of biological assets	109,264	185,345
Decrease due to harvest	(61,830)	(99,462)
Decrease due to sales	-	-
<b>End of the period/year</b>	<u><b>133,317</b></u>	<u><b>85,883</b></u>

ICC International Cannabis Corporation

**Notes to the consolidated interim financial statements (unaudited)**

For the three month period ended March 31, 2017

In determining the fair value of biological assets, management is required to make a number of estimates, including the expected cost required to grow the cannabis up to the point of harvest, harvesting costs, selling costs, sales price, and expected yields for the cannabis plant. These estimates are subject a number of uncontrollable factors, which could significantly affect the fair value of biological assets in future years.

The significant assumptions used in determining the fair value of recreational cannabis plants are as follows:

- yield by plant; and
- percentage of costs incurred for each stage of plant growth.

**14. TAXATION**

One of the subsidiaries of the Company, ICC International Corp, was incorporated under the International Business Companies Act of the British Virgin Islands and accordingly, is exempted from payment of British Virgin Island's income taxes. Accordingly, ICC International Corp's tax expense comprises the charge for tax currently payable or deferred attributable to its subsidiaries and registered branch in their taxable jurisdiction, which is limited to Uruguay as of the date of these interim consolidated financial statements. Tax is recognized in the statement of comprehensive income, except to the extent that it relates to items recognized directly in equity, in which case, it is also recognized in equity.

The subsidiaries and branch in Uruguay are required to calculate and file their income tax returns on a separate basis, rather than preparing a consolidated tax return. Therefore, neither subsidiaries nor the registered branch are allowed to offset income from one with losses from another.

Management has determined the tax losses for each subsidiary and branch under the general system of income tax under current Uruguayan tax law, which requires adding and deducting from the income or loss for the year of the financial statements prepared in local currency (Uruguayan Pesos) those items considered as taxable and nontaxable, respectively. The Uruguayan rate of income tax as of March 31, 2017 is 25%.

**15. RELATED PARTIES TRANSACTIONS**

Prior to going public, the Company funded operations through the support and management services provided by companies associated with a shareholding company of ICC. The amounts due at year end are owing to several entities of this group of companies.

Prior to the Qualifying Transaction, the Company's controlling shareholder was Union Group International Holdings Limited (Union Group). Union Group continues to be an existing shareholder of the Company.

On August 20, 2014, ICC entered in a "Services and Financing Agreement" with Union Group pursuant to which:

ICC International Cannabis Corporation

**Notes to the consolidated interim financial statements (unaudited)**

For the three month period ended March 31, 2017

- (a) Union Group granted a \$4,000,000 financing facility. Each draw down on the facility bears interest at an annual rate of 10%.
- (b) Union Group provides professional services (consisting of management, accounting, tax and legal services) to ICC related to the execution of the recreational cannabis and cannabinoids extraction projects.

The following transactions were carried out with related entities:

		<b>Three month period ended March 31, 2017</b>	<b>Three month period ended March 31, 2016</b>
		<b>\$</b>	<b>\$</b>
Opening balances		387,269	50,000

**17. CONTINGENCIES AND GUARANTEES**

**17.1. Contingencies**

Management of ICC considers there to be no contingent liabilities or legal commitments that have to be recognized in the consolidated interim financial statements of financial position as of March 31, 2017 and December 31, 2016.

**17.2. Guarantees**

As a performance bond of the license granted by IRCCA, ICC has pledged in guarantee a deposit of \$50,000 (as of December 31, 2016: \$50,000). This deposit is included in "Other receivables".

**18. CONTRACTS AND LICENSES**

**18.1. Recreational Cannabis – License**

On October 1, 2015, the Institute for the Regulation and Control of Cannabis ("Instituto de Regulación y Control del Cannabis" or "IRCCA") in its resolution N° 57/2015 granted to ICC International Corp a license to produce and distribute psychoactive cannabis for non-medical use to be dispensed in pharmacies, pursuant to the provisions in Law N° 19.172, the respective regulations and what is established in the specifications set out during the tender processes N° 1/2014 and N° 2/2014 of IRCCA.

On January 14, 2016, the "Contract for the production and distribution of psychoactive cannabis for non-medical use for dispensing in pharmacies" between the IRCCA and ICC International Corp was signed. The contract establishes that, among other things:

- ICC International Corp is permitted to produce and distribute up to 2 tonnes annually of psychoactive cannabis for non-medical use for dispensing in pharmacies;
- ICC International Corp must pay IRCCA as follows: a) a fixed cost of \$20,000 annually and b) a variable cost of 10% of its sales to pharmacies;
- the term of the license is 5 years from January 14, 2016, subject to revocation for non-compliance;
- production of recreational cannabis must be done on government owned land;

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

- ICC International Corp must only trade product with third-parties authorized by IRCCA;
- IRCCA determines the varieties of recreational cannabis to be produced, provides ICC International Corp with the initial genetic material for the first multiplication, and reserves the right to introduce and define changes in the varieties to be produced at any time during the validity of the license; and
- recreational cannabis will be sold to pharmacies at a price of \$0.90 per gram during the first year of production, adjustable thereafter according to the conditions appearing in the specifications of the tender process N° 2/2014.

**18.2. Compensation agreement with recreational cannabis business' developers**

On August 4, 2014, ICC International Corp signed a "Compensation Agreement" with the original developers of the recreational cannabis project for the initiation, promotion and support of the project, which included technical advisory, surveying and studies. As compensation, subject to the obtention of the recreational cannabis license, ICC International Corp paid in April 2016 to those developers \$1,200,000 in cash through a related party's finance facility and \$1,200,000 of ICC International Corp's common shares.

**18.3. Compensation agreement with hemp business' developers**

On January 20, 2015, ICC International Corp signed a "Compensation Agreement" with the original hemp business developers for technical advice and support related to the cannabinoids extraction project. As compensation, subject to the obtention of a hemp authorization, ICC International Corp paid in April 2016 to those developers \$800,000 in cash through a related party's finance facility and \$800,000 of ICC International Corp's common shares.

**18.4. Farmland acquisition for the cannabinoids extraction project**

On February 10, 2015, ICC International Corp signed an agreement to acquire a farmland for the cannabinoids extraction project for a total amount of \$3,300,000. This agreement is enforceable since ICC International Corp obtained a hemp license. In April 2016, the initial amount of \$2,300,000 was paid through a related party's financing facility and \$1,000,000 was paid in December 2016.

**18.5. Greenhouse acquisition for the recreational project**

On March 1, 2016, ICC International Corp signed the "Greenhouse Purchase Agreement" in which ICC International Corp acquired a greenhouse to be assembled on IRCCA's premises to grow recreational cannabis. The purchase price is \$2,770,000 payable to the supplier after the completion of the assemblage in four consecutive semiannual installments of \$692,500 beginning December 2016. The amount due bears interest at an annual rate of Libor 6 months + 3%.

**18.6. Hemp authorization**

On April 27, 2016, the Agricultural Services General Directorate of the Ministry of Livestock, Agriculture and Fishery of Uruguay issued its Resolution N°35 authorizing Tersum S.A. to import and plant seeds of hemp, harvest the grains and inflorescences planted, condition and to trade in the internal Uruguayan market the grains harvested as propagation material. The authorization of these activities shall be for 360 days as from the date of the resolution.

On December 20, 2016, the Agricultural Services General Directorate of the Ministry of Livestock, Agriculture and Fishery of Uruguay granted an additional authorization for Tersum S.A. to import and

ICC International Cannabis Corporation  
**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

plant seeds of hemp, harvest the grains and inflorescences planted, condition and to trade in the internal Uruguayan market the grains harvested as propagation material, and to export fiber and extracted oil. The authorization of these activities shall be for 360 days as from the date of the resolution.

## **19. SEGMENT INFORMATION**

IFRS 8 'Operating Segments' requires an entity to report financial and descriptive information about its reportable segments, which are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which separate financial information is available that is evaluated regularly by the chief operating decision maker ('CODM', Company's management) in deciding how to allocate resources and in assessing performance. The CODM evaluates the business based on the differences in the nature of its products, operations and risks. The amount reported for each segment item is the measure reported to the chief operating decision maker for these purposes.

Operating segments identified are disclosed as reportable segments if they meet any of the following quantitative thresholds:

- the operating segment's reported revenue, including both sales to external customers and inter-segment sales or transfers, is ten per cent or more of the combined revenue, internal and external, of all operating segments;
- the absolute amount of its reported profit or loss is ten per cent or more of the greater, in absolute amount, of:
  - the combined reported profit of all operating segments that do not report a loss, and
  - the combined reported loss of all operating segments that report a loss; and
- its assets are ten per cent or more of the combined assets of all operating segments.

If, after determining reportable segments in accordance with the preceding quantitative thresholds, the total external revenue attributable to those segments amounts to less than 75 per cent of the total Company's consolidated external revenue, additional segments are identified as reportable segments, even if they do not meet the thresholds described above, until at least 75 per cent of the Company's consolidated external revenue is included in reportable segments. Once the 75 per cent of the Company's consolidated external revenue is included in reportable segments, the remaining operating segments are aggregated in the 'All other segments' column.

As of March 31, 2017, the Company's principal businesses are "recreational cannabis project" and "cannabinoids extraction project". Based on the Company's managerial business structure, the Company operates in the following reportable segments as of March 31, 2017:

- The 'Recreational' Segment consists of planting, harvesting and sale of psychoactive cannabis pursuant to the licenses granted by the Uruguayan government. Management is focused on the long-term performance of the productive land, and to that extent, the performance is assessed considering the aggregated combination, if any, of crops planted in the land. A single manager is responsible for the management of operating activity of all crops.
- The 'Cannabinoids Extraction' Segment consists of planting, harvesting and sale of hemp and the related cannabinoid extraction for medicinal use pursuant to the authorizations granted by the Uruguayan government. This segment is as of March 31, 2017 in a pre-operative stage.

Both segments have reported revenues of nil as of March 31, 2017 and March 31, 2016.

ICC International Cannabis Corporation

**Notes to the consolidated interim financial statements (unaudited)**

For the three month period ended March 31, 2017

The measurement principles for the Company's segment reporting structure are based on the IFRS principles adopted in the consolidated interim financial statements. Revenue generated and goods and services exchanged between segments, if any, are calculated on the basis of market prices.

The following table presents information with respect to the Company's reportable segments.

	Recreational	Cannabinoids Extraction	Total Segments
	\$	\$	\$
<b>Three month period ended March 31, 2017</b>			
Initial recognition and changes in fair value of biological assets and agricultural produce	109,264	-	109,264
Cost of production and direct selling expenses	(175,257)	-	(175,257)
<b>Gross loss</b>	<b>(65,993)</b>	<b>-</b>	<b>(65,993)</b>
Depreciation and amortization	(285,698)	-	(285,698)
<b>Assets at March 31, 2017</b>			
Property, plant and equipment, net	6,554,846	-	6,554,846
Intangible assets	1,836,000	1,400,000	3,236,000
Biological assets	133,317	-	133,317

<b>Balance at March 31, 2017</b>	<b>112,565,010</b>	<b>41,909,414</b>

**Notes:**

- (a) On April 28, 2016, ICC International Corp issued 49,950,000 common shares at a fair value of \$0.3076 (39,960,000 post-Qualifying Transaction common shares of ICC at a fair value of \$0.3846 per share) to settle the outstanding debt with Union Group. The excess between the fair value consideration paid and the carrying amount of the debt settled of \$10,066,984 was recognized in the consolidated Statement of Loss in “Loss on debt settlement” in the Company’s annual audited financial statements for the year ended December 31, 2016.
- (b) Prior to the closing of the Qualifying Transaction, ICC International Corp completed a private placement (the “Private Placement”) of 32,500,000 subscription receipts (“Subscription Receipts”) at a price of \$0.3076 (CAD\$0.40) per Subscription Receipt for gross proceeds of \$9,651,076 (CAD\$13,000,000). At the closing of the Qualifying Transaction, the holders of the Subscription Receipts received 26,000,000 common shares of the Company, being 0.8 common shares for each Subscription Receipt. In connection with the Private Placement, GMP Securities L.P., as lead agent and sole bookrunner, and Mackie Research Capital Corporation received a cash commission of \$675,575 (CAD\$910,000) and broker warrants to purchase 2,275,000 common shares of ICC International Corp exercisable at a price of \$0.3076 (CAD\$0.40) per share until November 29, 2018, with such warrants being exchanged at the closing of the Qualifying Transaction for broker warrants to purchase 1,820,000 common shares of the Company exercisable at a price of \$0.3846 (CAD\$0.50) per common share until November 29, 2018. Warrants were valued at \$269,918 (CAD\$363,576) and have been recorded in equity under Warrants. The cost of issuing equity of \$134,673 (CAD\$181,405) has been applied against the fair value of the equity issued at the time of the acquisition.

**21. WARRANTS**

The warrant details of the Company are as follows:

<b>Type of warrant</b>	<b>Expiry Date</b>	<b>Number of warrants</b>	<b>Weighted average exercise price</b>	<b>Amount</b>
			CAD\$	\$
Warrant	November 29, 2018	1,456,000	0.50	215,934
Warrant	November 29, 2018	364,000	0.50	53,984
<b>Balance at March 31, 2017</b>		<b>1,820,000</b>	<b>0.50</b>	<b>269,918</b>

The Company used Black-Scholes pricing model to determine de fair value of warrants granted using the following assumptions: 1.31% risk-free rate; expected life of 2.02 years; volatility of 70% based on comparable companies; forfeiture rate of nil; and, exercise price of the respective warrants.

ICC International Cannabis Corporation  
**Notes to the consolidated interim financial statements (unaudited)**  
For the three month period ended March 31, 2017

**22. SHARE-BASED PAYMENT ARRANGEMENTS**

**Share-based payment reserve**

Share-based payment reserve is comprised of:

	<u>December 31, 2016</u>	<u>December 31, 2016</u>
	\$	\$
Balance, beginning of the year	1,942,528	-
Amounts charged in respect of reverse acquisition	-	113,538
Amounts charged in respect of stock based compensation	20,622	1,942,528
Amounts reclassified for exercise of stock options	-	(113,538)
<b>Balance, end of year</b>	<b><u>1,963,150</u></b>	<b><u>1,942,528</u></b>

**Stock option plan**

In November 2016, the Company adopted a stock option plan under which it is authorized to grant options to officers, directors, employees, and consultants enabling them to acquire common shares of the Company. The maximum number of common shares reserved for issuance of stock options that may be granted under the plan is 10% of the issued and outstanding common shares of the Company. The options granted can be exercised for up to a maximum of 10 years and vest as determined by the Board of Directors. The exercise price of each option may not be less than the market price of the common shares on the date of grant.

Options to purchase 365,000 ICC common shares at an exercise price of CAD\$0.10 per share, vested and having an expiry date of September 4, 2018, were recognized in respect of the reverse acquisition (Note 6).

On November 23, 2016, the Company issued 6,988,000 options at an exercise price of CAD\$0.50 per share, vesting immediately and having an expiry date of November 23, 2026, to certain directors, officers and consultants of the Company. The Company recognized a share-based compensation expense of \$1,942,528 during the year ended December 31, 2016 (2015: nil).

On March 9, 2017, the Company issued 500,000 options at an exercise price of CAD\$0.86 per share and 250,000 options at an exercise price of CAD\$1.50 per share, with all such options expiring on March 9, 2027.

The Company used the Black-Scholes pricing model to determine the fair value of options granted using the following assumptions: 1.31% risk-free rate; expected life of 1.78 and 10 years; volatility of 70% based on comparable companies; forfeiture rate of nil; and, exercise price of the respective options.

	<u>Number of Options</u>	<u>Weighted average exercise price</u>
<b>Three month period ended March 31, 2017</b>		CAD\$
Outstanding, beginning of the year	6,988,000	0.5
Issued during the period	750,000	1.07
Outstanding, end of period	<u>7,738,000</u>	<u>0.56</u>
<b>Exercisable, end of period</b>	<b><u>7,738,000</u></b>	<b><u>0.56</u></b>

## ICC International Cannabis Corporation

### Notes to the consolidated interim financial statements (unaudited)

For the three month period ended March 31, 2017

#### Compensation agreements

In August 2014 and January 2015, ICC International Corp entered into agreements in which, subject to certain conditions, ICC International Corp had to issue common shares equivalent to \$1,200,000 and \$800,000, respectively. The Company agreed to issue 50,000,000 (40,000,000 post-Qualifying Transaction common shares of the Company) common shares to satisfy this obligation.

On April 28, 2016, ICC International Corp issued 50,000,000 common shares at a fair value of \$0.3076 per share (40,000,000 post-Qualifying Transaction common shares of the Company at a fair value of \$0.3846 per share). The excess between the fair value consideration paid and the carrying amount of the debt settled of \$13,384,615 was recognized in the consolidated Statement of Loss in "Loss on debt settlement" in the Company's annual audited financial statements for the year ended December 31, 2016.

#### 23. LOSS PER SHARE

Basic loss per share is calculated by dividing the loss for the year attributable to the company by the weighted average number of shares in issue during the year. Diluted earnings per share are calculated by adjusting the weighted average number of shares outstanding to assume conversion of all dilutive potential shares.

	<u>March 31, 2017</u>	<u>March 31, 2016</u>
Net loss	\$ (649,988)	\$ (598,858)
Basic and diluted:		
Weighted average number of common shares outstanding	<u>112,565,010</u>	<u>40,000</u>
<b>Basic and diluted loss per share</b>	<u><b>(0.006)</b></u>	<u><b>(14.971)</b></u>

As the Company reported a net loss for the three month periods ended March 31, 2017 and March 31, 2016, the effect of the conversion or exercise of stock options and broker warrants was anti-dilutive and excluded from the calculation.

#### 24. SUBSEQUENT EVENTS

##### *CBD Seed Acquisition*

On April 3, 2017, ICC announced the acquisition of 100 kilograms of "Helena" hemp seeds. The "Helena" CBD strain is a monoecious homozygous variety that contains 0.07% of tetrahydrocannabinol. It also contains between 10 and 15 tons of stem per hectare that translates into between 3 to 4.5 tons of fibre per hectare, between 7 to 10 kg of scutch per hectare, and between 800 to 1,000 kg of seeds per hectare. These seeds contain an oil content between 28% and 32% and high level protein content near 25%. By March 2018, the Company expects to complete the construction of the laboratory and extraction facilities and to have started harvesting industrial hemp.

##### *Medicinal Cannabis Greenhouse*

On April 3, 2017, ICC announced the acquisition of a new 21,528 square foot greenhouse that will be used for production of the Company's medicinal cannabis plants which will be destined for the production of CBD extracts and by-products for medicinal use. In May 2017, ICC successfully completed the setup of this greenhouse and began to germinate 4,000 Helena seeds, with harvesting expected in October 2017.

**Notes to the consolidated interim financial statements (unaudited)**

*For the three month period ended March 31, 2017*

Working at its full capacity, the greenhouse is expected to allow the Company to work with 3,000 plants per cycle, having at least three cycles per year resulting in a minimum of 9,000 plants per year for medicinal purposes.

*Implementation of Recreational Cannabis Market in Uruguay*

On April 6, 2017, the Government of Uruguay announced that it was expected that sales of recreational cannabis would commence in July, 2017 through registered pharmacies. On May 2, 2017, the registration process commenced for the purchase of recreational cannabis in Uruguay through registered pharmacies.

*Exercise of Broker Warrants*

On April 12, 2017, GMP Securities L.P. exercised 1,456,000 broker warrants at a price of Cdn.\$0.50 per warrant, equivalent to Cdn.\$728,000.

*Importation Agreement with Avanti*

On April 18, 2017, the Company entered into an importation agreement (the "**Importation Agreement**") with ARA – Avanti Rx Analytics Inc. ("**Avanti**"), a licensed dealer under the *Controlled Drugs and Substances Act* (Canada) and its regulations overseen by Health Canada.

The Importation Agreement establishes a non-exclusive contractual business relationship between ICC and Avanti where Avanti agrees to act as a Canadian importing agent for ICC for its cannabis products and distributor to customers identified by ICC from time to time. Avanti has also agreed to act as a Health Canada GMP approved contract analytical lab in Canada for ICC's CBD oil. The activities contemplated by the Importation Agreement remain subject to applicable regulatory approvals, including those from the TSXV, IRCCA, the Uruguayan Ministry of Livestock, Agriculture and Fishery and Health Canada.
